

Patient 101 Lesson 4

Prepared Patients
Get Better Care! ♥

The 3 Things to Bring to Every Appointment ♥

Empowering Health Together

Three things in your pocket can turn
a rushed visit into a good one. ♥

First minute tells!

- Bring your timeline, med list, and questions.
- Your provider spends less time chasing info and more time helping you.
- No medical degree required! ♥

1 Your Timeline

Tell your story — briefly.

Example:

"It started 3 weeks ago,
worse in the morning,
ibuprofen isn't touching it."

Your timeline is
information no test can give! ♥

2 Your Real Medication List (With Doses)

Bring a current list of
everything you take.

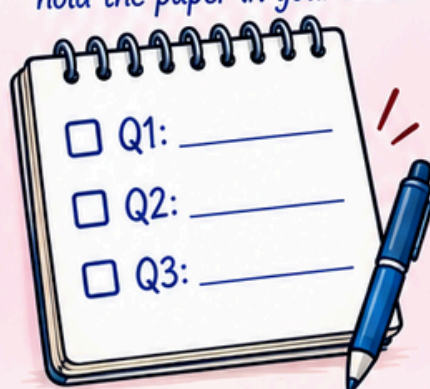

No more
"a little white pill!"

Pro tip: Snap a photo
of your bottle labels. ⚡

3 Your Top Questions (Written Down)

Write your questions and
hold the paper in your hand.

Read from a list —
it's not rude, it's smart! ♥

Good questions
lead to better answers!

✂️ ----- Print, fold, and keep in your pocket before every appointment. ♥ -----

My Appointment Pocket Checklist ♥

Check it. Pack it. You've got this!

1 My Timeline

- ☐ Main concern
- ☐ When it started
- ☐ What has changed
- ☐ What I've tried
- ☐ Any other important details

Keep it simple. Be ready. ♥

2 My Medication List

- ☐ Prescription medications (name, dose, how often)
- ☐ Vitamins & supplements
- ☐ Over-the-counter meds
- ☐ Bring actual list or photo of your bottles

All your meds. One list. ♥

3 My Top Questions

- ☐ Write your top 3 questions
- ☐ Bring the paper with you
- ☐ Ask about your plan
- ☐ Ask about next steps
- ☐ Take notes if needed

Your questions matter! ♥

Small preparation.
Big impact. ♥
